Daily Activities/Social and Community Access

EPIC can tailor in home support plans to assist with your daily life support needs. We can support you to live as independently as possible and help maintain your home living environment.

If you find it difficult to be involved in social and community activities, EPIC can be by your side to support you at each stage you are building your social and community participation. We tailor services to your needs and goals. Our understanding and trained staff will be by your side at your desired pace and comfortability.

Increased social and community participation

We understand that it can sometimes be difficult, overwhelming, or even anxiety provoking to try and get out of the house into the community or to a social event. EPIC can support you to build your capacity to improve your relationship and social skills, confidence using transport, participate in recreation activities, peer support and life choices. We can assist you at your pace with proven strategies to support you to strengthen your ability to live your best life and achieve your goals.

Supported Independent Living (SIL)

At EPIC, we provide Supported Independent Living (SIL) Accommodation options and Support Services to NDIS participants with allocated funding. If you need a SIL accommodation option or you require SIL supports in your own home, we are here to help. Although we specialise in brain disorders, we also provide specialist disability supports to all NDIS participants funded for SIL in their plan. We have an experienced team that will work with you to develop SIL supports that are completely tailored to your individual needs. This can include supports that are 1:1, 1:2, 1:3, or even 2:1 (2 workers to one participant) support, and include any type of overnight support whether it be inactive or active. EPIC is a provider of complex needs and high intensity supports for all disabilities. Our staff are trained in hoisting, medication assistance, personal care and mobility support.

Support Coordination

Level 3 Specialist Support Coordination

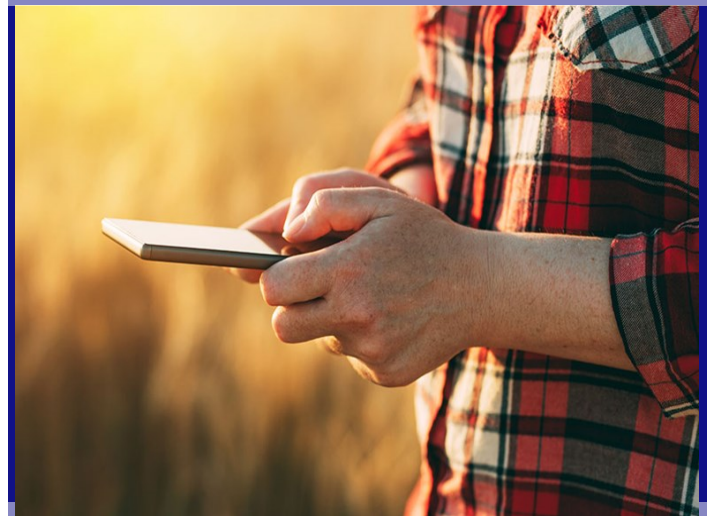

EPIC offers a higher level of support coordination for people whose situations are more complex and who need specialist support. A Specialist Support Coordinator will assist you to manage challenges in your support environment which may include health, education, or justice services. The Specialist Support Coordinator will aim to reduce barriers to participants implementing or using their NDIS plan as well as ensuring consistent delivery of service by service providers.

Level 2 Support Coordination

EPIC Support Coordinators will help put your NDIS plan into action! A Support Coordinator will assist you to understand how you can use your NDIS plan to meet your goals and manage those resources effectively to get the best outcome from your plan. Our Support Coordinators will help you with as much or as little assistance as you need. No matter where you are in your NDIS plan journey, you can have a chat to our friendly team today about how we can help you maximise your plan and coordinate your supports.

Psychosocial Recovery Coaches

EPIC Psychosocial Recovery Coaches (PRCs) provide support to NDIS participants with a psychosocial disability to live full and contributing lives. Participants will be assisted to take more control of their lives and to better manage complex challenges of day to day living. Through strong and respectful relationships and skilled coaching, participants will be supported to build capacity, including strengths and resilience. PRCs work collaboratively with people, their families, carers and supports to design, plan, implement and adjust a recovery plan. They collaborate with the broader service system and assist with the coordination of NDIS and other supports.
